

DroneALERT Data Products & Services

Client Subscription

Clients who subscribe have access to a greater level of information, services and customisation. You can also subscribe to add a temporary drone exclusion zone! All subscriptions are for a minimum of 12 months, with the exception of T-Jez which are for the period of the event only. Multi-annual/event subscriptions will attract a discounted rate.

Data products

DroneALERT Global Drone Exclusion Map

The DroneALERT Global Drone exclusion Map can be purchased separately as country, state and global datasets. Access to the maps are via client portal and dashboard which allows client management of the data purchased.

Client Customised map layers

If clients do not see a map layer that is of use to them, we can work together to create a customised map layer. This can be displayed on the site or kept secure, as per client requirements.

Services

DroneALERT Client Jurisdiction Exclusion Zone (JEZ)

Clients can allocate their own JEZ which they have the legal right or obligation to control drones in the airspace. Applications as these can be for airports, military grounds, embassy, utility facilities, prisons, national parks etc.

DroneALERT Temporary Client Jurisdiction Exclusion Zone (T-JEZ)

Clients can allocate their own T-JEZ which they have the legal right or obligation to control drones in the airspace. Applications as these are for one-off T-JEZ which cover events, VIP movements, ceremonies etc.

Client system customisation

Do you want more than we currently provide? No problem, we are here to listen to your needs and provide a bespoke service. We can customise a map layer for your needs.
